

Recombinant Human WTAP

Catalog No: #GP12546

Package Size: #GP12546-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human WTAP
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	Wilms tumor 1 associated protein
Other Names	Mum2
Accession No.	Swissprot:Q15007Gene Accession:BC000383
Uniprot	Q15007
GeneID	9589;
Storage	-20~-80°C, pH 7.6 PBS

Background

The Wilms tumor suppressor gene WT1 appears to play a role in both transcriptional and posttranscriptional regulation of certain cellular genes. This gene encodes a WT1-associating protein, which is a ubiquitously expressed nuclear protein. Like WT1 protein, this protein is localized throughout the nucleoplasm as well as in speckles and partially colocalizes with splicing factors. Alternative splicing of this gene results in several transcript variants encoding three different isoforms.
