

Recombinant Human NCAPH

Catalog No: #GP12647

Package Size: #GP12647-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human NCAPH
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 542-741 amino acids of human NCAPH
Target Name	non-SMC condensin I complex subunit H
Other Names	BRRN1; CAP-H
Accession No.	Swissprot:Q15003Gene Accession:BC024211
Uniprot	Q15003
GeneID	23397;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the barr gene family and a regulatory subunit of the condensin complex. This complex is required for the conversion of interphase chromatin into condensed chromosomes. The protein encoded by this gene is associated with mitotic chromosomes, except during the early phase of chromosome condensation. During interphase, the protein has a distinct punctate nucleolar localization. Alternatively spliced transcript variants encoding different proteins have been described.
