

Recombinant Human CINP

Catalog No: #GP12781

Package Size: #GP12781-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CINP
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	cyclin dependent kinase 2 interacting protein
Accession No.	Swissprot:Q9BW66Gene Accession:BC000600
Uniprot	Q9BW66
GeneID	51550;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is reported to be a component of the DNA replication complex as well as a genome-maintenance protein. It may interact with proteins important for replication initiation and has been shown to bind chromatin at the G1 phase of the cell cycle and dissociate from chromatin with replication initiation. It may also serve to regulate checkpoint signaling as part of the DNA damage response. Alternative splicing results in multiple transcript variants.
