

Recombinant Human CORO1A

Catalog No: #GP12819

Package Size: #GP12819-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CORO1A
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 262-461 amino acids of human CORO1A
Target Name	coronin 1A
Other Names	p57; IMD8; TACO; CLABP; HCORO1; CLIPINA
Accession No.	Swissprot:P31146Gene Accession:BC126385
Uniprot	P31146
GeneID	11151;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the WD repeat protein family. WD repeats are minimally conserved regions of approximately 40 amino acids typically bracketed by gly-his and trp-asp (GH-WD), which may facilitate formation of heterotrimeric or multiprotein complexes. Members of this family are involved in a variety of cellular processes, including cell cycle progression, signal transduction, apoptosis, and gene regulation. Alternative splicing results in multiple transcript variants. A related pseudogene has been defined on chromosome 16.
