

Recombinant Human ABCC6

Catalog No: #GP12820

Package Size: #GP12820-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human ABCC6
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 1304-1503 amino acids of human ABCC6
Target Name	ATP binding cassette subfamily C member 6
Other Names	ARA; PXE; MLP1; MRP6; PXE1; URG7; ABC34; GAC12; MOATE; MOAT-E; EST349056
Accession No.	Swissprot:O95255Gene Accession:BC131732
Uniprot	O95255
GeneID	368;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). The encoded protein, a member of the MRP subfamily, is involved in multi-drug resistance. Mutations in this gene cause pseudoxanthoma elasticum. Alternatively spliced transcript variants that encode different proteins have been described for this gene.?
