## Recombinant Human DYNC1LI1

Catalog No: #GP12852

Package Size: #GP12852-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

## Description

combinant Protein ion protein corresponding to a region derived from 324-523 amino acids of human DYNC1LI1 ein cytoplasmic 1 light intermediate chain 1
ein cytoplasmic 1 light intermediate chain 1
1; DLC-A; DNCLI1
ssprot:Q9Y6G9Gene Accession:BC131620
/6G9

## Background

The protein encoded by this gene belongs to light intermediate subunit family, whose members are components of the multiprotein cytoplasmic dynein complex, which is involved in intracellular trafficking and chromosome segregation during mitosis. The protein plays a role in moving the spindle assembly checkpoint (SAC) from kinetochores to spindle poles. The protein may also mediate binding to other cargo molecules to facilitate intracellular vesicle trafficking.
