

# Recombinant Human LILRA2

Catalog No: #GP13000

Package Size: #GP13000-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	Recombinant Human LILRA2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 24-223 amino acids of human LILRA2
Target Name	leukocyte immunoglobulin like receptor A2
Other Names	ILT1; LIR7; CD85H; LIR-7
Accession No.	Swissprot:Q8N149Gene Accession:BC017412
Uniprot	Q8N149
GeneID	11027;
Storage	-20~-80°C, pH 7.6 PBS

## Background

This gene encodes a member of a family of immunoreceptors that are expressed predominantly on monocytes and B cells, and at lower levels on dendritic cells and natural killer cells. The encoded protein is an activating receptor that inhibits dendritic cell differentiation and antigen presentation and suppresses innate immune response. Alternatively spliced transcript variants encoding different isoforms have been found. This gene is located in a cluster of related genes on chromosome 19 and there is a pseudogene for this gene on chromosome 3.
