Recombinant Human FLOT2

Catalog No: #GP13145

Package Size: #GP13145-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

| Product Name | Recombinant Human FLOT2 |
|-----------------------|--|
| Brief Description | Recombinant Protein |
| Immunogen Description | Fusion protein corresponding to a region derived from 229-428 amino acids of human FLOT2 |
| Target Name | flotillin 2 |
| Other Names | ESA; ECS1; ESA1; ECS-1; M17S1 |
| Accession No. | Swissprot:Q14254Gene Accession:BC017292 |
| Uniprot | Q14254 |
| GeneID | 2319; |
| Storage | -20~-80°C, pH 7.6 PBS |

Background

Caveolae are small domains on the inner cell membrane involved in vesicular trafficking and signal transduction. This gene encodes a caveolae-associated, integral membrane protein, which is thought to function in neuronal signaling. May act as a scaffolding protein within caveolar membranes, functionally participating in formation of caveolae or caveolae-like vesicles. May be involved in epidermal cell adhesion and epidermal structure and function.
