

Recombinant Human FAM19A4

Catalog No: #GP13483

Package Size: #GP13483-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human FAM19A4
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 36-140 amino acids of human FAM19A4
Target Name	family with sequence similarity 19 member A4, C-C motif chemokine like
Other Names	TAFA4; TAFA-4
Accession No.	Swissprot:Q96LR4Gene Accession:BC031566
Uniprot	Q96LR4
GeneID	151647;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene is a member of the TAFA family which is composed of five highly homologous genes that encode small secreted proteins. These proteins contain conserved cysteine residues at fixed positions, and are distantly related to MIP-1alpha, a member of the CC-chemokine family. The TAFA proteins are predominantly expressed in specific regions of the brain, and are postulated to function as brain-specific chemokines or neurokines, that act as regulators of immune and nervous cells. Alternatively spliced transcript variants have been observed for this gene.
