

Recombinant Human AK6

Catalog No: #GP13504

Package Size: #GP13504-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human AK6
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 1-172 amino acids of human AK6
Target Name	adenylate kinase 6
Other Names	CIP; CINAP; AD-004; hCINAP; CGI-137
Accession No.	Swissprot:Q9Y3D8Gene Accession:BC007349
Uniprot	Q9Y3D8
GeneID	102157402;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a protein that belongs to the adenylylase family of enzymes. The protein has a nuclear localization and contains Walker A (P-loop) and Walker B motifs and a metal-coordinating residue. The protein may be involved in regulation of Cajal body formation. In human, AK6 and TAF9 (GeneID: 6880) are two distinct genes that share 5' exons. Alternative splicing results in multiple transcript variants.
