

Recombinant Human CLTB

Catalog No: #GP13533

Package Size: #GP13533-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CLTB
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 1-211 amino acids of human CLTB
Target Name	clathrin light chain B
Other Names	LCB
Accession No.	Swissprot:P09497Gene Accession:BC006332
Uniprot	P09497
GeneID	1212;
Storage	-20~-80°C, pH 7.6 PBS

Background

Clathrin is a large, soluble protein composed of heavy and light chains. It functions as the main structural component of the lattice-type cytoplasmic face of coated pits and vesicles which entrap specific macromolecules during receptor-mediated endocytosis. This gene encodes one of two clathrin light chain proteins which are believed to function as regulatory elements. Alternative splicing results in multiple transcript variants.
