

Human CD30 Protein, His tag

Catalog No: #AP89609

Package Size: #AP89609-1 10ug #AP89609-2 100ug

Orders: order@signalwayantibody.com

Support: tech@signalwayantibody.com

Description

Product Name	Human CD30 Protein, His tag
Host Species	HEK293
Purification	The purity of the protein is greater than 95% as determined by SDS-PAGE and Coomassie blue staining.
Species Reactivity	Human
Immunogen Description	CD30(Phe19-Lys379)+6xHis tag
Other Names	TNFRSF8,CD30,D1S166E,Ki-1
Tag Info	C- 6xHis tag
Formulation	Lyophilized from sterile PBS, pH 7.4. Normally 5% - 89% trehalose is added as protectants before lyophilization.
Storage	Store at -80°C for 12 months (Avoid repeated freezing and thawing)

Product Description

Expression Region:600Research Topic:The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is expressed by activated, but not by resting, T and B cells. TRAF2 and TRAF5 can interact with this receptor, and mediate the signal transduction that leads to the activation of NF-kappaB. This receptor is a positive regulator of apoptosis, and also has been shown to limit the proliferative potential of autoreactive CD8 effector T cells and protect the body against autoimmunity. Two alternatively spliced transcript variants of this gene encoding distinct isoforms

have been reported.

Note: This product is for in vitro research use only
