## VAV3 Rabbit mAb

Catalog No: #56652

Package Size: #56652-1 50ul #56652-2 100ul

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

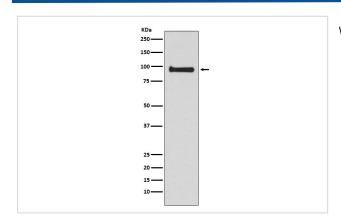

# Description

| Product Name          | VAV3 Rabbit mAb                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------|
| Host Species          | Rabbit                                                                                             |
| Clonality             | Monoclonal                                                                                         |
| Isotype               | Rabbit IgG                                                                                         |
| Purification          | Affinity-chromatography                                                                            |
| Applications          | WB ICC/IF IP FC                                                                                    |
| Species Reactivity    | Human Mouse                                                                                        |
| Specificity           | VAV3 Antibody detects endogenous levels of total VAV3                                              |
| Immunogen Description | A synthesized peptide derived from human VAV3                                                      |
| Other Names           | RGD1565941; VAV 3; VAV3 oncogene;                                                                  |
| Accession No.         | Uniprot:Q9UKW4                                                                                     |
| Uniprot               | Q9UKW4                                                                                             |
| Calculated MW         | 98kDa                                                                                              |
| Formulation           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Storage               | Store at +4Λ C short term. Store at -20Λ C long term. Avoid freeze / thaw cycle.                   |

# **Application Details**

WB:1:500~1:2000ICC/IF:1:50~1:200IP:1:50FC:1:40.

# **Images**

Western blot analysis of VAV3 expression in Jurkat cell lysate.

# **Product Description**

Plays an important role in angiogenesis. Its recruitement by phosphorylated EPHA2 is critical for EFNA1-induced RAC1 GTPase activation and vascular endothelial cell migration and assembly.

Note: This product is for in vitro research use only
