| Product Name          | MADCAM1 Conjugated Antibody                                                                                                                                                  |
| Host Species          | Rabbit                                                                                                                                                                       |
| Clonality             | Monoclonal                                                                                                                                                                   |
| Isotype               | Rabbit IgG                                                                                                                                                                   |
| Purification          | Affinity-chromatography                                                                                                                                                      |
| Species Reactivity    | Human                                                                                                                                                                        |
| Specificity           | MADCAM1 Antibody detects endogenous levels of total MADCAM1                                                                                                                  |
| Immunogen Description | A synthesized peptide derived from human MADCAM1                                                                                                                             |
| Conjugates            | Biotin AF350 AF405 AF488 AF555 AF594 AF647 AF680 AF750                                                                                                                       |
| Other Names           | MACAM1; Madcam1;                                                                                                                                                             |
| Accession No.         | Uniprot:Q13477                                                                                                                                                               |
| Uniprot               | Q13477                                                                                                                                                                       |
| Excitation Emission   | AF350: 346nm/442nm<br>AF405: 401nm/421nm<br>AF488: 493nm/519nm<br>AF555: 555nm/565nm<br>AF594: 591nm/614nm<br>AF647: 651nm/667nm<br>AF680: 679nm/702nm<br>AF750: 749nm/775nm |
| Calculated MW         | 60kDa                                                                                                                                                                        |
| Storage               | Store at 4°C in dark for 6 months                                                                                                                                            |

## Application Details

Suggested Dilution:

AF350 conjugated: most applications: 1: 50 - 1: 250

AF405 conjugated: most applications: 1: 50 - 1: 250

AF488 conjugated: most applications: 1: 50 - 1: 250

AF555 conjugated: most applications: 1: 50 - 1: 250

AF594 conjugated: most applications: 1: 50 - 1: 250

AF647 conjugated: most applications: 1: 50 - 1: 250

AF680 conjugated: most applications: 1: 50 - 1: 250

AF750 conjugated: most applications: 1: 50 - 1: 250

Biotin conjugated: working with enzyme-conjugated streptavidin, most applications: 1: 50 - 1: 1,000

## Product Description

---

Cell adhesion leukocyte receptor expressed by mucosal venules, helps to direct lymphocyte traffic into mucosal tissues including the Peyer patches and the intestinal lamina propria.
