

## ABCF1 Rabbit mAb

Catalog No: #58972

Package Size: #58972-1 50ul #58972-2 100ul

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

|                       |  |
|-----------------------|--|
| Product Name          | ABCF1 Rabbit mAb   |
| Host Species          | Rabbit   |
| Clonality             | Monoclonal   |
| Isotype               | Rabbit IgG   |
| Purification          | Affinity-chromatography  |
| Applications          | WB IHC ICC/IF  |
| Species Reactivity    | Human Rat  |
| Specificity           | ABCF1 Antibody detects endogenous levels of ABCF1  |
| Immunogen Description | A synthesized peptide derived from human ABCF1   |
| Other Names           | ABC27; ABC50; ABCF1; ATP-binding cassette 50; ATP-binding cassette 50 (TNF-alpha stimulated);<br>TNF-alpha-stimulated ABC protein; |
| Accession No.         | Uniprot:Q8NE71   |
| Uniprot               | Q8NE71   |
| Formulation           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                 |
| Storage               | Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.   |

## Application Details

WB 1:500~1:2000 IHC 1:50~1:100 ICC/IF 1:50~1:100

## Images

Western blot analysis of ABCF1 expression in K562 cell lysate.

Immunohistochemical analysis of paraffin-embedded human colon, using ABCF1 Antibody.

## Product Description

ABCF1 May function in mRNA translation. Belongs to the ABC transporter superfamily. ABCF family. EF3 subfamily. Induced by TNF (in cultured synoviocytes). Interacts with eukaryotic initiation factor 2 (eIF2). Associates with the ribosomes. 2 isoforms of the human protein are produced by alternative splicing. Note: This description may include information from UniProtKB.

## Background

ABCF1 May function in mRNA translation. Belongs to the ABC transporter superfamily. ABCF family. EF3 subfamily. Induced by TNF (in cultured synoviocytes). Interacts with eukaryotic initiation factor 2 (eIF2). Associates with the ribosomes. 2 isoforms of the human protein are produced by alternative splicing. Note: This description may include information from UniProtKB.

Note: This product is for in vitro research use only
