## Claudin 15 Antibody FITC Conjugated

Catalog No: #C02838F

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

| Description           | Support: tech@signalwayantibody.com   |
|-----------------------|---|
| Product Name          | Claudin 15 Antibody FITC Conjugated   |
| Host Species          | Rabbit  |
| Clonality             | Polyclonal  |
| Isotype               | IgG   |
| Purification          | Purified by Protein A.  |
| Applications          | ICC IF  |
| Species Reactivity    | Hu  |
| Immunogen Description | KLH conjugated synthetic peptide derived from human Claudin 15                  |
| Conjugates            | FITC  |
| Target Name           | Claudin 15  |
| Other Names           | Claudin-15; CLD15_HUMAN; CLDN15.  |
| Excitation Emission   | 494nm 518nm   |
| Cell Localization     | Extracellular   |
| Concentration         | 1mg ml  |
| Formulation           | 0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.                |
| Storage               | Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles. |
|                       |   |

## **Application Details**

ICC=1:50-200 IF=1:50-200

## Background

The claudin superfamily consists of many structurally related proteins in humans. These proteins are important structural and functional components of tight junctions in paracellular transport. Claudins are located in both epithelial and endothelial cells in all tight junction-bearing tissues. Three classes of proteins are known to localize to tight junctions, including the claudins, Occludin and Junction adhesion molecules. Claudins, which consist of four transmembrane domains and two extracellular loops, make up tight junction strands. Claudin expression is often highly restricted to specific regions of different tissues and may have an important role in transcellular transport through tight junctions. Claudin-15 is a 228 amino acid multi-pass membrane protein that belongs to the claudin family and plays an important role in cell-adhesion activity and tight junction-specific events.

Note: This product is for in vitro research use only
