STAMBP Antibody

Catalog No: #36099

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

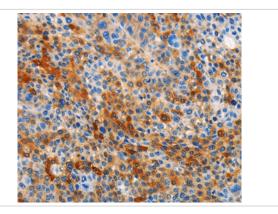

$\overline{}$		4.0
\mathbf{I}	Decri	ption
\boldsymbol{L}	COUL	บแบบ

Product Name	STAMBP Antibody	
Host Species	Rabbit	
Clonality	Polyclonal	
Purification	Antigen affinity purification.	
Applications	IHC	
Species Reactivity	Hu	
Specificity	The antibody detects endogenous levels of total STAMBP protein.	
Immunogen Type	Recombinant Protein	
Immunogen Description	Fusion protein corresponding to a region derived from internal residues of human STAM binding protein	
Target Name	STAMBP	
Other Names	AMSH	
Accession No.	Swiss-Prot#: O95630NCBI Gene ID: 10617Gene Accssion: BC065574	
Uniprot	O95630	
GeneID	10617;	
Concentration	0.5mg/ml	
Formulation	Rabbit IgG in pH7.4 PBS, 0.05% NaN3, 40% Glycerol.	
Storage	Store at -20°C	

Application Details

Immunohistochemistry: 1:15-1:50

Images

Immunohistochemical analysis of paraffin-embedded Human liver cancer tissue using #36099 at dilution 1/15.

Background

Cytokine-mediated signal transduction in the JAK-STAT cascade requires the involvement of adaptor molecules. One such signal-transducing adaptor molecule contains an SH3 domain that is required for induction of MYC and cell growth. The protein encoded by this gene binds to the SH3 domain of the signal-transducing adaptor molecule, and plays a critical role in cytokine-mediated signaling for MYC induction and cell cycle progression. Multiple alternatively spliced transcript variants encoding the same protein isoform have been found for this gene.
