

Adiponectin Antibody

Catalog No: #21665

Package Size: #21665-1 50ul #21665-2 100ul

Description

Product Name	Adiponectin Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide.
Applications	WB
Species Reactivity	Hu Ms Rt
Specificity	The antibody detects endogenous level of total Adiponectin protein.
Immunogen Type	Peptide-KLH
Immunogen Description	Peptide sequence around aa.235~239(T-G-F-L-L) derived from Human Adiponectin.
Conjugates	Unconjugated
Target Name	Adiponectin
Other Names	ACDC; ADPN; APM1
Accession No.	Swiss-Prot: Q15848NCBI Protein: NP_001171271.1
Concentration	1.0mg/ml
Formulation	Supplied at 1.0mg/mL in phosphate buffered saline (without Mg ²⁺ and Ca ²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.

Application Details

Predicted MW: 27kd

Western blotting: 1:500~1:1000

Images

Western blot analysis of extracts from Rat and Mouse brain tissue using Adiponectin Antibody #21665.

Background

Important adipokine involved in the control of fat metabolism and insulin sensitivity, with direct anti-diabetic, anti-atherogenic and anti-inflammatory activities. Stimulates AMPK phosphorylation and activation in the liver and the skeletal muscle, enhancing glucose utilization and fatty-acid combustion. Antagonizes TNF- α by negatively regulating its expression in various tissues such as liver and macrophages, and also by counteracting its effects. Inhibits endothelial NF- κ -B signaling through a cAMP-dependent pathway. May play a role in cell growth, angiogenesis and tissue remodeling by binding and sequestering various growth factors with distinct binding affinities, depending on the type of complex, LMW, MMW or HMW.
