

CPVL antibody

Catalog No: #22265

Package Size: #22265 100ul

Description

Product Name	CPVL antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Purified by antigen-affinity chromatography.
Applications	WB
Species Reactivity	Hu
Immunogen Type	Recombinant protein
Immunogen Description	Recombinant protein fragment contain a sequence corresponding to a region within amino acids 54 and 431 of Human CPVL
Conjugates	Unconjugated
Target Name	CPVL
Accession No.	Swiss-Prot:Q9H3G5Gene ID:54504
Concentration	1mg/ml
Formulation	Supplied in 0.1M Tris-buffered saline with 10% Glycerol (pH7.0). 0.01% Thimerosal was added as a preservative.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.

Application Details

Predicted MW: 54kd

Western blotting: 1:500-1:3000

Images

Sample(30 ug of whole cell lysate)
A: Hep G2
7.5% SDS PAGE
Primary antibody diluted at 1: 2000

Background

The protein encoded by this gene is a carboxypeptidase and bears strong sequence similarity to serine carboxypeptidases. Carboxypeptidases are a large class of proteases that act to cleave a single amino acid from the carboxy termini of proteins or peptides. The exact function of this protein,

however, has not been determined. At least two alternatively spliced transcripts which encode the same protein have been observed. [provided by RefSeq]

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
