

CCK Polyclonal Antibody

Catalog No: #29586

Package Size: #29586-1 50ul #29586-2 100ul

Description

Product Name	CCK Polyclonal Antibody
Host Species	Rabbit
Clonality	Polyclonal
Applications	IHC-p IF
Species Reactivity	Human Mouse Rat
Immunogen Description	The antiserum was produced against synthesized peptide derived from human CCK. AA range:46-95
Conjugates	Unconjugated
Accession No.	Swiss-Prot#:P06307
Concentration	1mg/ml
Storage	Store at -20°C

Application Details

Immunohistochemistry: 1/100 - 1/300

Images

Immunohistochemistry analysis of CCK antibody in paraffin-embedded human brain tissue.

Background

cholecystokinin(CCK) Homo sapiens This gene encodes a member of the gastrin/cholecystokinin family of proteins. The encoded preproprotein is proteolytically processed to generate multiple protein products, including the peptide hormones cholecystokinin-8, -12, -33, and others. The encoded peptides have been shown to regulate gastric acid secretion and food intake. A sulfated form of cholecystokinin-8 may modulate neuronal activity in the brain. Alternative splicing results in multiple transcript variants.

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
