

## MIB1 / DIP1 Rabbit mAb

Catalog No: #59779

Package Size: #59779-1 50ul #59779-2 100ul

## Description

|                       |                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------|
| Product Name          | MIB1 / DIP1 Rabbit mAb                                                                             |
| Host Species          | Rabbit                                                                                             |
| Clonality             | Monoclonal                                                                                         |
| Isotype               | Rabbit IgG                                                                                         |
| Purification          | Affinity-chromatography                                                                            |
| Applications          | WB IHC ICC/IF                                                                                      |
| Species Reactivity    | Human Mouse                                                                                        |
| Specificity           | MIB1 / DIP1 Antibody detects endogenous levels of total MIB1 / DIP1                                |
| Immunogen Description | A synthesized peptide derived from human MIB1 / DIP1                                               |
| Other Names           | Dip1; LVNC7; MIB; mib1; ZZANK2; ZZZ6;                                                              |
| Accession No.         | Uniprot:Q86YT6                                                                                     |
| Formulation           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Storage               | Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.                     |

## Application Details

WB 1:500~1:2000 IHC 1:50~1:200 ICC/IF 1:50~1:200

## Images

Western blot analysis of MIB1 / DIP1 expression in Caco2 cell lysate.

## Background

E3 ubiquitin-protein ligase that mediates ubiquitination of Delta receptors, which act as ligands of Notch proteins. Positively regulates the Delta-mediated Notch signaling by ubiquitinating the intracellular domain of Delta, leading to endocytosis of Delta receptors.

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
