

## EphB2 Mouse mAb

Catalog No: #63594

Package Size: #63594-1 50ul #63594-2 100ul

## Description

|                       |                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------|
| Product Name          | EphB2 Mouse mAb                                                                          |
| Host Species          | Mouse                                                                                    |
| Clonality             | Monoclonal                                                                               |
| Isotype               | Mouse IgG2b                                                                              |
| Applications          | IF                                                                                       |
| Species Reactivity    | Human                                                                                    |
| Immunogen Description | Purified recombinant fragment of EphB2 (aa17-200) expressed in E. Coli.                  |
| Target Name           | EphB2                                                                                    |
| Other Names           | DRT; ERK; CAPB; Hek5                                                                     |
| Accession No.         | P29323                                                                                   |
| Formulation           | Purified antibody in PBS with 0.05% sodium azide.                                        |
| Storage               | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

## Application Details

ICC:1/200 - 1/1000ELISA:1/10000

## Images

Immunofluorescence analysis of Hela (left) and HepG2 (right) cells using EphB2 mouse mAb (green). Red: Actin filaments have been labeled with DY-554 phalloidin. Blue: DRAQ5 fluorescent DNA dye.

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
