

## FRK Mouse mAb

Catalog No: #63651

Package Size: #63651-1 50ul #63651-2 100ul

## Description

|                       |                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------|
| Product Name          | FRK Mouse mAb                                                                            |
| Host Species          | Mouse                                                                                    |
| Clonality             | Monoclonal                                                                               |
| Isotype               | Mouse IgG1                                                                               |
| Applications          | WB                                                                                       |
| Species Reactivity    | Human                                                                                    |
| Immunogen Description | Purified recombinant fragment of human FRK expressed in E. Coli.                         |
| Target Name           | FRK                                                                                      |
| Other Names           | GTK; RAK; PTK5                                                                           |
| Accession No.         | P42685                                                                                   |
| Calculated MW         | 58kDa                                                                                    |
| Formulation           | Purified antibody in PBS with 0.05% sodium azide.                                        |
| Storage               | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

## Application Details

WB:1/500 - 1/2000ELISA:1/10000

## Images

Western blot analysis using FRK mouse mAb against K562 cell lysate (1).
