

# Recombinant Human MED26 Protein, N-His

Catalog No: #AP97555

Package Size: #AP97555-1 50ug #AP97555-2 100ug #AP97555-3 1mg

## Description

|                |                                                                                                                                                                                                                                                                                            |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name   | Recombinant Human MED26 Protein, N-His                                                                                                                                                                                                                                                     |
| Host Species   | E. coli                                                                                                                                                                                                                                                                                    |
| Purification   | >90% as determined by SDS-PAGE.                                                                                                                                                                                                                                                            |
| Applications   | ELISA, Immunogen, SDS-PAGE, WB, Bioactivity testing in progress                                                                                                                                                                                                                            |
| Other Names    | Mediator of RNA polymerase II transcription subunit 26, Activator-recruited cofactor 70 kDa component, ARC70, Cofactor required for Sp1 transcriptional activation subunit 7, CRSP complex subunit 7, Mediator complex subunit 26, Transcriptional coactivator CRSP70, MED26, ARC70, CRSP7 |
| Accession No.  | O95402                                                                                                                                                                                                                                                                                     |
| Target Species | Homo sapiens (Human)                                                                                                                                                                                                                                                                       |
| Calculated MW  | 15.75 kDa                                                                                                                                                                                                                                                                                  |
| Target Length  | Ser481-Asp600                                                                                                                                                                                                                                                                              |
| Tag Info       | His-tag                                                                                                                                                                                                                                                                                    |
| Formulation    | Lyophilized from a solution in PBS pH 7.4, 0.02% NLS, 1mM EDTA, 4% Trehalose, 1% Mannitol.                                                                                                                                                                                                 |
| Storage        | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for frequent use. Store at -20 to -80°C for twelve months from the date of receipt.                                                                                                                  |

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
