## Description

|                    |                                                                                                    |
|--------------------|----------------------------------------------------------------------------------------------------|
| Product Name       | CD163L1 Conjugated Antibody                                                                        |
| Host Species       | Rabbit                                                                                             |
| Clonality          | Monoclonal                                                                                         |
| Isotype            | IgG                                                                                                |
| Purification       | Affinity-chromatography                                                                            |
| Species Reactivity | Human                                                                                              |
| Specificity        | CD163L1 Antibody detects endogenous levels of total CD163L1                                        |
| Conjugates         | AF Dye                                                                                             |
| Other Names        | CD163b; CD163L1; CD164L1; M160; Scart1;                                                            |
| Accession No.      | Q9NR16                                                                                             |
| Calculated MW      | 160kDa                                                                                             |
| Formulation        | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Storage            | Store at 4°C in dark for 6 months                                                                  |

## Application Details

## Suggested Dilution:

AF350 conjugated: most applications: 1: 50 - 1: 250

AF405 conjugated: most applications: 1: 50 - 1: 250

AF488 conjugated: most applications: 1: 50 - 1: 250

AF555 conjugated: most applications: 1: 50 - 1: 250

AF594 conjugated: most applications: 1: 50 - 1: 250

AF647 conjugated: most applications: 1: 50 - 1: 250

AF680 conjugated: most applications: 1: 50 - 1: 250

AF750 conjugated: most applications: 1: 50 - 1: 250

Biotin conjugated: working with enzyme-conjugated streptavidin, most applications: 1: 50 - 1: 1,000

## Background

Isoform 1 is highly expressed in the spleen, lymph nodes, thymus, and fetal liver and weakly expressed in bone marrow and no expression was found in peripheral blood leukocytes. Isoform 1 expression is restricted to the monocyte and macrophage cell lines. Isoform 2 is only expressed in spleen.

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
